Agenda

- Challenging Parcel Pricing Environment
- Steps to Improving Parcel Pricing
 - Understanding Pricing Agreements
 - “Gotchas” and Solutions
 - GRI’s
 - Minimum Charges
 - DIM pricing
 - Accessorial Charges
 - Punitive Language
- Getting the Carriers to Compete
- Q&A

Rising Rates For Parcel Shipping

- FedEx & UPS public entities; focused on margin
 - Annual rate increases well above CPI
 - Intra-year changes (peak surcharges, fuel surcharges, etc.)
 - Dimensional pricing
- Service waivers, punitive language, contract “gotchas”
- Inability to benchmark
- Few alternatives

Challenging to Compare Carriers in 2020

- Way greater complexity; different pricing for:

- Published rates
- Minimum charges
- Fuel surcharges
- Accessorial charges
- Shipping charge corrections
- Peak surcharges
- Hundredweight

- Different companies/services

Carrier Retention Strategies

- Contracts
 - Multiyear agreements
 - Revenue based incentives
 - Minimum volume commitments & early termination penalties
 - Rebates
 - Confidentiality language
- Portfolio bundle (LTL, Ground with Freight Pricing)
- “Free” shipping systems; technology subsidies
- Carrier rep relationships

Rebates & Enterprise Tiers

Summary Level Deferred Tier

The Customer will receive an additional incentive off of net transportation charges (not including Fuel Surcharges paid) **subject to all applicable minimums** in this or other agreements per the following schedule based on a 13 week rolling average of eligible packages tendered to UPS. The band determination is based on the cumulative net transportation charges per week (excluding accessorials and surcharges, unless otherwise specified). The incentives will be administered on a quarterly basis. Within thirty (30) days after the end of the period, UPS will issue a single check to the Customer representing the total amount of the additional incentive(s) earned, if any.
