Intelligent Material Handling

- Sustainability
- Efficiency
- Innovation
- Outlook

POWERED BY POSSIBILITIES.

Standardization

- Parts
- Processes
- Manufacturing

Modular

- Repurpose damage parts
- Parts are now standard across different models
- Universality of racks

Alternative materials

- Biodegradable
- Plastic alternatives
- Lower petroleum bases
- Environmentally nice surface treatments

Green manufacturing

- Decrease weldment waste and fumes
- Utilize mortis and tenon
- Increase strength
- Easier to assemble

Artificial intelligence

- Sensors
- Innovative
- Improve CNN

Outlook... whats next

- Intelligence built into racks
- Faster reaction to changes in applications
- Real time logistical measurement tools
- Accurate anticipation of yet unseen logistic challenges
